## ENTRACK Training Platform

The ENTRACK training platform will offer free online courses designed to strengthen knowledge and skills for a sustainable and inclusive energy transition.

The training is targeted for local governments and policy actors, helping them enhance their knowledge and capacity to support fair energy transition.

Enroll now

## The training courses

Learners can explore **six thematic areas** across **thirteen courses**, offered in **six languages** (English, Greek, Spanish, Italian, Portuguese, and Catalan). The courses cover:

- Energy concepts and terminology
- Taxonomy of social energy plans
- Social energy policy, justice, and equity
- Energy poverty and vulnerability
- Data collection on energy poverty
- EU financial opportunities

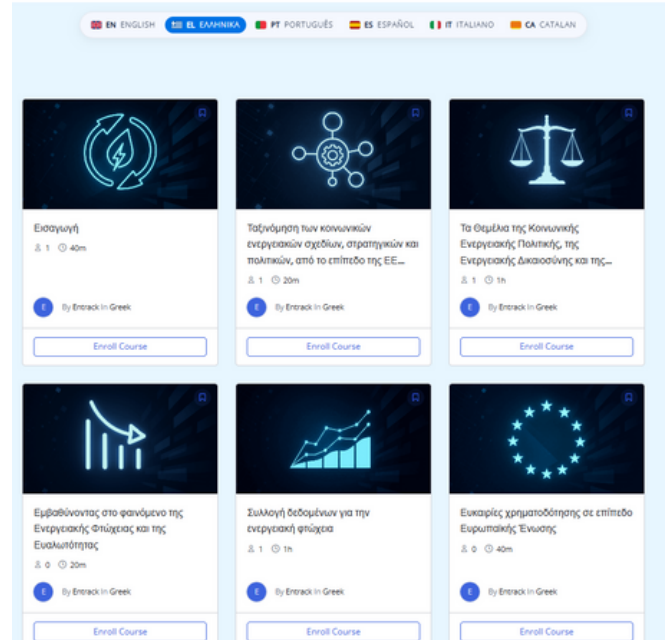

## Skills acquired

- Inclusive Energy Poverty Mitigation
- Policy Knowledge & Development
- Energy Justice & Literacy
- Evidence-Based Decision Making
- Stakeholder Engagement & Collaboration

## The training courses

Each course is delivered through slide-based videos with voiceover, lasting between 15 and 30 minutes. Learners can check their understanding through interactive quizzes, and a personalized learning profile allows progress to be tracked and resumed at any time.

**The platform is free and open to everyone, offering:**

- ✓ Practical and policy-focused content
- ✓ Downloadable training materials
- ✓ Insights into the ENTRACK methodology
- ✓ Certificates upon completion

**Access at:**

<https://training.entrack-project.eu/>

The platform has been developed to provide accessible and practical learning resources on energy and social policy issues, with the aim of supporting policymakers and citizens across Europe.
